

Worked All Zones Award Rules

Section 1. Introduction

The CQ Worked All Zones Award (WAZ) and its variations are issued to any licensed Radio Amateur Station presenting proof of contact with all 40 CQ Zones.

This proof consists of proper QSL cards; which in many cases may be checked by any of the authorized check points or sent directly to the WAZ Award Manager. (List of Authorized Check Points is included elsewhere in these rules)

The WAZ Program is one of the longest running in Ham Radio, having its start prior to WWII.

The WAZ program, while it involves the use of DX Entities, does not rely on any particular Entity's status as a country. The WAZ award is geographically focused, which is where its challenge lies.

WAZ Award correspondence can be directed to the WAZ Award Manager:

Application Form, Rules and Zone Map are available in .PDF format from the CQ Magazine WAZ Rules web page: www.cq-amateur-radio.com/wazrules.html

This information is also available from either the WAZ Award Manager or CQ Magazine in hardcopy. Mail your request for WAZ information to either of the addresses shown above. Please include a business size SAE with two units of postage (for US stations) or \$2.00 with your request. Foreign stations may supply a return mailing label and 3 IRC's. Please indicate on the back of your envelope "WAZ Info Request" so we can spot your letter easier and reply quickly.

Section 2. General Rules

All QSO's must be made by a licensed Amateur Radio Operator, from a licensed Amateur Radio station, using only modes of emission and transmitter output power as permitted by the local licensing authority. QSO's with stations other than Radio Amateur (such as MARS, Commercial or Military) are ineligible for the WAZ award.

All QSO's must be conducted within the radio spectrum as authorized for that licensee by the local licensing authority

Any WAZ applicant found to be operating outside the bounds of their license may be disqualified from the WAZ program.

All contacts must be made from within the same DXCC Entity.

QSO's made by the same applicant using previous call signs from that same DXCC entity are acceptable. Proof of holding those previous call signs is requested.

The Official CQ WAZ Zone Map and the printed zone list are used to determine the zone in which a station is located.

If a problem is found with your application or QSL cards, we will attempt to contact you via e-mail to inform you of the issue and attempt to resolve it with you. We REALLY don't want to return your application if we don't have to.

The submission of any WAZ award application acknowledges consent to abide by the decisions of the CQ WAZ Manager and the CQ Awards Committee.

Decisions of the CQ DX Advisory Committee on any matter pertaining to the administration of this award are final.

Section 3. QSO s and QSL s

All QSO s must be two-way with both stations using the same mode of emission.

QSL Cards must include:

1. Callsigns of both stations
2. Date of QSO
3. Time of QSO (UTC preferred)
4. Band or Frequency of QSO
5. Mode of QSO
6. The QTH of the station worked (country, state, city). Indication of the CQ zone is optional

QSL Cards not including the information above may be returned to the applicant for replacement, and not credited towards the WAZ award.

Ineligible QSOs:

Cross-Band

Cross-Mode

Aeronautical Mobile

Maritime Mobile

Stations located on floating ice

Ships anchored in port

Any altered or forged confirmations submitted by an applicant for WAZ credit may result in permanent disqualification. The WAZ Manager may request the resubmission of certain confirmations. While a QSL card is normally accepted as proof of a contact, the final proof is an entry in the DX station's logbook for the listed QSO.

The failure to resubmit QSLs in a timely manner when requested by the WAZ Manager may result in the recall of the award in question.
